debut ep **Shelter**,
released 2018

for fans of
first aid kit, guy clarke, brandi carlile, jigjam, the whileaways, wilco

the story so far

On a cold October evening in 2013, 6 well-seasoned and reasonably well-dressed musicians sat around a kitchen table and wondered how they could put the world to rights through music.

6 years on and **The Cedartowns** continue to move from strength to strength along the folk scene as a respected and well-loved band.

Combining the Soderberg-esque harmonies of the Nugent sisters with flawless string, whistle and accordian playing, The Cedartowns' unique folk style plays across a swirling soundscape of emotive melodies, joyous harmonies and foot-stomping tunes.

Fresh off their hugely successful collaboration with Clonmel Applefest, this band will play on your heartstrings as beautifully as they play their instruments...
